THE GROUP

Design Consultancy

We endeavor to provide the best design solutions backed by the right implementation strategies. We precisely understand your requirements and will not put you through uncomfortable situations like multiple design revisions etc.

Turnkey Solutions

We provide turnkey solutions where we go all out and facilitate every process involved including selection, negotiation, space planning, construction co-ordination and complete project execution.

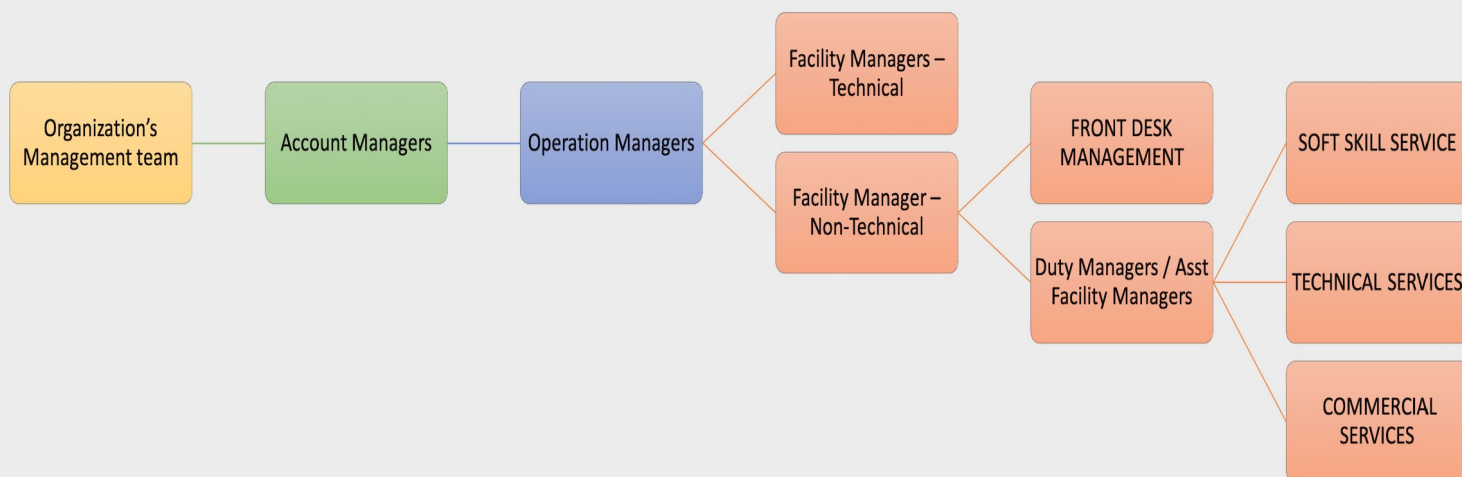

Project Management

We bring along the combined expertise of Framworkz and its partners across various avenues like planning, preparing, consulting and evaluation. We are aided by the latest technology and can help you out in deciding the right layout and thus realize what you had envisioned.

Facility Management

We also provide a diverse array of services whereby we assist our clients to manage their facilities so that they can concentrate on their core business. You can leave the hassles of managing your facility with us.

We believe a strong team builds the core infrastructure of any Facility Management Services. It is the Team that makes things happen.

The team consists of Experienced Facility Professionals, Soft Skill Professionals, Graduate Engineers, Technicians, Commercial Professionals, HSE & Quality Management professionals, Audit Teams, Purchase and Procurement experts, Training Staff, Transition Managers etc.

Our collaboration with other SMEs across the country enable us to provide the most seamless services and adequate support structure at the very minimized time span

Our team is a collaboration of experienced professionals in the field who had acquired tremendous operational skills and expertise in facility management with more than a decade of experience in the field.
